

THE MADISON COUNTY PROPOSED VOTE CENTER PLAN

OFFICE OF THE MADISON COUNTY CIRCUIT
COURT CLERK, OLIVIA PRATT

(Date to be inserted later)

J. Brad King, Co-Director
Angela M. Nussmeyer,
Co-Director Indiana Election
Division
302 West Washington Street E-204
Indianapolis, IN 46204

Dear Directors,

Pursuant to Indiana Code 3-11-18.1-3(h) enclosed please find the Madison County Election Board Order (insert order number here) and the Vote Center Plan that was unanimously adopted by the Madison County Election Board. It means a great deal to the Board and me to be involved in this innovative, progressive change for Madison County.

It is our intention to continuously modify this plan to fit current Indiana legislation and to revise the plan based on our experiences with vote centers and the needs of our voters.

Please let me know if you have questions or concerns regarding any of our documentation.

Sincerely,

A handwritten signature in cursive script that reads "Olivia Pratt".

Olivia Pratt
Madison County Circuit Court Clerk

MESSAGE FROM THE CLERK

Citizens of Madison County,

Since the Vote Center concept became a reality in Indiana elections in 2007, leaders in Madison County have been carefully observing its effect on voters, county budgets, and on the election process.

The following pages layout our plan to make Vote Centers a reality in Madison County. The Vote Center concept gives any voter in Madison County the opportunity to cast their ballot at any polling location throughout the county. No one is restricted to one polling place on Election Day. In addition to making it easier for voters on Election Day, the Vote Center concept also calls for increased early voting opportunities at what are called "Satellite Vote Centers" that are open prior to Election Day.

The most common questions that we hear on Election Day are, "Where is my polling place?" and "Why can't I just vote at the polling place across from where I work?" A common complaint that we hear is being unable to make it to the polls by 6:00 pm on Election Day. Vote Centers would address all of these common voter concerns.

Another important part of the Vote Center concept is the financial impact it will have on Madison County. Having to staff fewer locations and provide less equipment and support on Election Day will help the county to realize a cost savings on items such as rentals, poll workers, and equipment.

By transitioning to Vote Centers, voter convenience is improved, election administration is streamlined and made simpler, and the county's long-term fiscal stance would be improved when it comes to elections.

Most Americans have been voting under the same process for over 150 years. Vote Centers represent a major step forward and bring elections into the 21st Century.

I want to thank all the wonderful people who have worked so hard and in a bipartisan manner to move the county toward vote centers. Madison County should be proud of its community leaders who worked together for what will be best for all citizens. To all the churches, libraries, community centers and businesses that have willingly allowed us to use their facilities as Vote Centers, we are forever grateful.

Sincerely,

A handwritten signature in cursive script that reads "Olivia Pratt".

Olivia Pratt

Madison County Circuit Court Clerk

INTRODUCTION

What is a Vote Center?

A vote center is a place where any registered voter in the county can vote on Election Day. Vote centers bring to bear new technologies to revolutionize the voting process. Instead of traditional precinct-based polling sites on Election Day, the vote center concept calls for vote center locations where any registered voter from any precinct can go to cast their ballot and retrieve their correct ballot style. Every precinct ballot style is available at every vote center location. In addition, because of electronic poll books, when a voter signs in at one vote center's electronic poll book, it is automatically updated to reflect that the voter has cast their ballot.

Why Madison County?

Since 2007, Indiana has been experimenting with the vote center concept through a pilot program launched by the Indiana Secretary of State's office and the Indiana general Assembly, in 2011, the Indiana General Assembly passed legislation to allow any Indiana county to pursue becoming a vote center county. Since 2007, government and civic leaders in Madison County have been observing vote centers' impact on voters and election administration. The pilot programs showed that vote centers streamlined election administration and improved voter convenience. In addition, vote center counties have seen a cost reduction in their elections over time.

Because of these results from the pilot programs in Indiana (which can be found at www.VoteCenters.IN.gov), leaders in Madison County decided to pursue this exciting new approach to election administration for the 2020 Election Cycle.

What is required to become a Vote Center County?

Indiana Code 3.11-18.1-3 sets forth the requirements for a county to become a vote center county. The first step to becoming a vote center county requires a draft vote center plan which details specifics of how such a transition would occur. This document serves as the vote center plan for Madison County. Indiana Code 3-11-18.1-4 sets forth the requirements of a county's vote center plan. Once a draft plan is submitted for public review and comment at a public meeting of the County Election Board, the opportunity for the public to review the draft plan and submit comments must remain open for 30 days. After the 30 days of opportunity for the public to review and comment on the draft plan, the County Election Board holds another public meeting to consider all public comments and then votes to adopt the vote center plan as is or as amended. For the county to become a vote center county, the County Election Board must by unanimous vote approve a vote center plan, and the County Commissioners and County Council must approve by majority vote resolutions approving the status of the county as a vote center county.

If all three of those things occur, the plan must be filed with the Indiana Election Division and Madison County will officially become a vote center county. Any future amendments to the plan or a decision to return to traditional precinct-based elections must be voted on by unanimous vote of the County Election Board and filed with the Indiana Election Division.

Madison County will officially gain status as a vote center county once the vote center plan is filed with the Indiana Election Division, pursuant to IC 3-11-18.1-8.

OVERVIEW OF THE PROCESS

The Vote Center Task Force

Once a vote center plan is adopted by the County Election Board and filed with the Indiana Election Division, the County Election Board, the County Election Staff, County IT Staff, and the Indiana Team from Election Systems and Software (Collectively known as “The Vote Center Task Force”) will move forward with preparing for this major change in Election Administration for the 2020 Election Cycle.

The Task Force is made up of people with tremendous experience in the election process. The County Election Board has a track record of working in a bipartisan way to ensure the process is free and fair. The County Election Staff works hard year-round preparing Madison County for elections. Our County IT Staff continue to be a tremendous asset to this process. Our election vendor brings to the table experienced managers who both understand Indiana law, the vote center concept, and have an intimate knowledge of electronic poll books.

The voting equipment

Madison County’s current voting system, the ExpressVote, is perfectly suited for the vote center concept. ExpressVotes have been used in numerous jurisdictions around the country in a vote center context.

ExpressVote marking devices are ADA compliant, and the DS 200 ballot scanners are the tabulators that will be used in the vote center locations. Provisional ballots for every ballot style in each election will also be available on the ExpressVotes. Provisional ballots marked on the ExpressVotes will be kept separate from regular ballots so that the County Election board can determine whether to accept or reject each individual provisional ballot following Election Day.

In order to fulfill the requirement in Indiana Code 3-11-18.1-14 that requires ballots to be kept separately by precinct, poll workers will have to separate the ballots by hand before returning the results to the courthouse on Election Day. Just as in traditional elections, at the end of the Election Day, votes will still be tallied and reported by precinct.

Electronic Poll Book

Madison County has elected to use Election Systems and Software’s ExpressPoll, pending contract. This electronic poll book will be securely connected to every vote center and to the County Election Board at the Madison County Courthouse on Election Day. It will securely connect every satellite vote center and County Election Staff. The ExpressPoll meets all standards set out by Indiana law under IC 3-11-8-10.3. In addition, our vendor election managers have intimate knowledge and experience with electronic poll books.

E-Poll Book Description and Security Details

The ExpressPoll Electronic Poll Book hardware and software issued by ES&S is designed to function as a secure voter validation system and it meets the standards set out by IC 3-11-8-10.3. The ExpressPoll uses a dedicated hardware enclosure which provides a strong, secure enclosure for the unit.

The ExpressPoll system gives election poll workers a simple-to-operate voter check-in device that slashes waiting time for voters, increases the accuracy of voters' personal information, and improves the Election Day experience for voters and poll workers alike. The popular electronic pollbook software, EZRoster, runs on affordable touch-screen tablets. This provides an intuitive, easy-to-understand user interface similar to the digital devices used every day (see page 9). The ExpressPoll also can be integrated with multiple tabulation devices to provide a complete voter check-in solution and ensure the correct ballot style is issued.

ExpressVote Activation Card Printer: If a jurisdiction has multiple ballot styles on Election Day, the Vote Session Activator card is printed with a barcode. Once inserted into the ExpressVote, the correct ballot style is presented on screen, eliminating wasteful ballot printing.

The ExpressPoll tablet offers "redundant" internal data storage, ensuring that voter validation information can be retrieved after each election. Data is stored in solid-state internal memory and on a microSD card installed in the tablet. If one of these storage areas experiences any issues, data can easily be retrieved from the other data storage location.

When a voter arrives at the vote center, their eligibility to vote will be brought up on an ExpressPoll screen. In a primary election, the poll clerk will indicate which party ballot the voter has requested (Republican or Democrat). The system will record the time that the voter was checked in and the records will be updated back to the Madison County Election Board and the electronic poll books used by precinct election officers at all other vote centers in Madison County. If a voter attempts to vote again, the database will show them to be ineligible. After every election, voter history is uploaded directly from the ExpressPoll unit, dramatically reducing upload times and enabling faster updates to the voter registration system.

The dedicated ExpressPoll enclosure is not susceptible to theft, unlike an off-the-shelf notebook computer which can be enticing to a thief.

Data stored in the ExpressPoll redundant compact flash memory can be encrypted using sophisticated RC-4 data encryption. In addition, Madison County can deploy VPN routers on WAN to provide native data encryption to transmissions. The use of an election official's or poll workers user ID and password provides access to accomplish designated tasks within the system. Every log-on attempt generates an audit log event, so it is very easy to read the audit log and determine what activities were completed by a specific person. The ExpressPoll units are issued by device ID number in carrying cases, which can be sealed with a numbered seal.

Each ExpressPoll will have a unique device ID for controlling the log files after an election. This ID is numeric and should be 6 characters. This number becomes the title of the log file (#####.Log), and also is the first six characters of the provisional ID when using the auto provisional ID option in the ExpressPoll unit. The hard sided ExpressPoll carrying case can be locked and has a latch that can be secured with security (numbered) seals.

A strong security plan with processes that guide usage in a recommended best practice is in the Administrator's manual. Two levels of passwords and smart cards are required to set certain configuration options. Election officials can mandate using simple passwords, pass phrases, or two-phase authentication using simple passwords.

Additional password protections are provided at the server and these passwords can be set to expire.

Encrypted user logs are available to identify who has used and modified the system and devices, reports of all election functions performed on the system are available; and statistics can be captured of open, close, log-on, log-off by user ID.

The audit log file contains a time stamp of every transaction, providing the date and time of each voter processed. This log file can be encrypted using one of the following industry standard algorithms. RC4, AES-128 in OFB MODE, AES-128 IN CCM MODE, AES- 256 IN OFB MODE.

The ExpressPoll USB ports can be physically covered to restrict tampering.

In the future, should electronic poll books require federal certification; the use of a dedicated electronic poll book enclosure will become increasingly important to meet federal certification requirements, as internal hardware components will have to remain consistent to meet the certification standards. A dedicated enclosure will allow jurisdictions to continue to meet these strict standards, while the use of an off-the-shelf computer will not, as replacement components for an off-the-shelf computer will not provide the consistency required to meet federal certification standards.

Satellite Vote Centers

A key element to the success of the vote center concept has been the concept of satellite vote centers, which are sites open during the 28-day period prior to each Election Day. Satellite vote centers are places where any voter in the county may vote early absentee-in-person. As required under IC 3-11-10-26.3 and IC 3-11-18.1-4 (16), Madison County will designate at least five satellite vote centers, in addition to the courthouse, and at least one of those sites will also be a vote center on Election Day. In vote center counties, early voting percentages have risen dramatically, allowing the fewer locations on Election Day itself to work well.

Poll Workers

Madison County will require fewer poll workers to administer Election Day vote centers. However, the use of poll workers will increase during the week prior to Election Day, in order to staff the satellite vote centers. Each satellite vote center and Election Day vote center will have at least one traditional precinct Election Board made up of an Inspector, at least two election judges of opposite parties, and at least two clerks of opposite parties, depending on the election size and location of the vote center. Training procedures for poll workers will remain largely the same.

ExpressPoll®

Electronic Pollbook

Built-In Peripherals (in back)

Poll workers scan barcodes with the tablet's built-in camera and capture voter signatures on the touch screen.

Ballot Info

Quickly see if a ballot has been issued for a voter.

Portability

Lightweight tablet can be used at a check-in table or transported along the line during busy times.

FULLY INTEGRATED SOLUTION

- Communicates seamlessly with our data conversion software
- Shares real-time data with our CentralPoint® web application, enabling election administrators to manage poll locations easier and more efficiently
- Integrates with ExpressVote®, iVotronic®, Balotar®, AccuVote-TS® and AccuVote-TSX® voting systems for a powerful election management system

ExpressPoll Key Features

The ExpressPoll system gives election poll workers a simple-to-operate voter check-in device that slashes waiting time for voters, increases the accuracy of voters' personal information, and improves the Election Day experience for voters and poll workers alike. Our popular electronic pollbook software, EZRoster, runs on affordable touch-screen tablets. This provides an intuitive, easy-to-understand user interface similar to the digital devices used every day. The ExpressPoll also can be integrated with multiple tabulation devices to provide a complete voter check-in solution and ensure the correct ballot style is issued.

REDUNDANT DATA STORAGE

The ExpressPoll tablet offers "redundant" internal data storage, ensuring that voter validation information can be retrieved after each election. Data is stored in solid-state internal memory and on a microSD card installed in the tablet. If one of these storage areas experience any issues, data can easily be retrieved from the other data storage location.

FASTER VOTER HISTORY UPLOADS

After every election, voter history is uploaded directly from the ExpressPoll unit, dramatically reducing upload times and enabling faster updates to the voter registration system.

WORKS WITH THE EXPRESSPOLL-5000

Are you a current ExpressPoll-5000 customer? Our ExpressPoll tablets can be seamlessly added to your existing system. Both solutions use the same EZRoster software, database and resource file to provide the same user experience.

ROBUST SOFTWARE AND CONNECTIVITY

- Helps reduce provisional voting by providing up-to-date absentee status or directions to correct polling location
- Displays on-screen instructions, giving poll workers information and the confidence to serve all voters
- Supports same-day registration
- Connects wirelessly using secure connection options in polling places to sync across all pollbooks
- Safeguards including password protection and secure system controls ensure only those with specific permissions are allowed access

For more information visit www.essvote.com

ExpressVote®

Universal Voting System as a Marker

Multilingual

Touch Screen and Display

Allows voters to easily make vote selections and review their selection.

Instruction Panel

A visual guide that shows voters how to use the ExpressVote.

Card Slot

Where the voter inserts their card to activate selections.

Visual Aids

High contrast and zoom functionality.

Front Access Panel

Headphone jack, a port for a Sip-and-Puff device or two-position rocker switch, and Audio-Tactile Keypad make the unit ADA friendly.

Audio-Tactile Keypad

Enables ADA voters to control audio and navigate the ballot.

ACTIVATING THE VOTE SESSION:

Election officials can configure the ExpressVote to best fit their needs. The voter receives an activation card to begin the process.

- If only one ballot style is programmed for the election, a blank card activates the vote session.
- Multiple ballot styles with a blank card prompt poll workers to select the correct ballot style for the voter.
- A card with an activation barcode displays the correct options for the voter if the election has multiple ballot styles.

ExpressVote Key Features

As a marker, the ExpressVote handles the entire marking process, eliminating unclear marks and the need for voter mark interpretation. Voters utilize the touch screen to mark their vote selections, receiving a verifiable paper vote record upon completion. The ExpressVote is used during early voting or in precincts and vote centers on Election Day to serve every eligible voter, including those with special needs.

EASY TO SET UP AND USE

The one-step startup and poll-closing procedure make the ExpressVote an ideal device for poll workers. The intuitive design offers streamlined simplicity for poll workers and election staff. The ExpressVote is also small, lightweight and easy to move.

CONTROLLED AND REDUCED COSTS

Traditional ballot printing costs can be significantly reduced by eliminating the need for pre-printed paper ballots. Voters activate their vote session, make their selections and receive a paper record to cast. This process consumes 70 percent less paper than traditional ballots.

INNOVATIVE DESIGN

Voters review a summary page and can make changes before receiving their verifiable paper vote record. The ExpressVote prevents overvotes and undervotes with prompts and on-screen feedback. ExpressVote in marking mode neither stores nor tabulates vote counts. The system produces a verifiable paper record for each voter.

VERIFIABLE PAPER RECORD

After all selections are made, a human- and machine-readable paper record is produced that includes text and an optical scan barcode. Vote summary cards are digitally scanned for tabulation on an ES&S DS200®, DS450®, DS850® or ExpressVote® XL device.

SECURE

The ExpressVote Universal Voting System utilizes a variety of functions to ensure election data and cast vote records are secure. In its current certification as a marking device, no vote data is stored in the device. Its system functions are only executable during election events, in the manner and order intended by election officials performing their duties.

For more information visit www.essvote.com

VOTE CENTER LAYOUT

Vote centers will be set up differently based on location, but the general layout of a vote center in Madison County will be as follows:

| | | | | | |
|---------|---------|---------|---------|---------|---------|
| MACHINE | MACHINE | MACHINE | MACHINE | MACHINE | MACHINE |
| 1 | 2 | 3 | 4 | 5 | 6 |

INSPECTOR

VOTE CENTER AND SATELLITE VOTE CENTER LOCATIONS

Madison County plans to utilize 28 vote center locations for the 2020 Election Day. Indiana Code 3-11-18.1-6 requires one vote center per 10,000 active voters. Hours for voting will be 6:00 A.M. TO 6:00 P.M. All locations comply with ADA standards, as required by IC 3-11-18.1-4.

The following are vote center locations to be open on Election Day:

1. Adams Twp. Fire Dept., 7457 S 200 E, Markleville, IN 46056
2. Alexandria 4-H Building, 512 E 4th Street, Alexandria, IN 46001
3. Aletheia Fellowship Church, 2505 Faith Drive, Anderson, IN 46013
4. Anderson Zion Baptist Church, 2008 Rev. J.T. Meniffee St, Anderson, IN 46016
5. Bethany Christian Church, 1920 No. Rangeline Road, Anderson, IN 46011
6. Chesterfield Mill Creek Center, 17 Veterans Blvd., Chesterfield, IN 46017
7. Edgewood Baptist Church, 3743 Nichol Ave, Anderson, IN 46011
8. Elwood City Hall, 1505 South "B" Street, Elwood, IN 46036
9. Elwood St. John's Lutheran Church, 10099 North St. Rd. 37, Elwood, IN 46036
10. Fall Creek Christian Church, 1102 W 700 S, Pendleton, IN 46064
11. Frankton Christian Church, 201 No. Church St., Frankton, IN 46044
12. Frankton-Lapel Administration Building, 7916 W 300 N Anderson, IN 46011
13. Glad Tidings Church, 815 E School Street, Anderson, IN 46012
14. Ingalls Town Hall, 247 No. Meridian Street, Ingalls, IN 46064
15. Lapel Lions Club, 329 South Main Street, Lapel, IN 46051
16. Main Street Church of God, 4211 S Main Street, Anderson, IN 46013
17. National Guard Armory, 125 Scatterfield Rd, Anderson, IN 46012
18. Orestes Town Hall, 14 W Oak St, Orestes, IN 46063
19. Parkview Nazarene, 911 S Rangeline Rd, Anderson, IN 46012
20. Pendleton Christian Church, 1170 S Pendleton Ave, Pendleton, IN 46064
21. Pendleton Library, 595 East Water Street, Pendleton, IN 46064
22. South Meridian CHOG, 2402 Meridian St, Anderson, IN 46016
23. St. Mathews United Methodist Church, 1512 N Madison Ave, Anderson, IN 46011
24. Summerlake - Grandview Church of the Brethren, 9064 W. Grandview Blvd. Ingalls, IN 46064
25. Summitville Wesleyan Holiness, 17345 N 150 E Summitville, IN 46070
26. UAW Local 1963, 2840 S Madison Ave, Anderson, IN 46016
27. Wesley Free Methodist Church, 3017 W 8th St, Anderson, IN 46011
28. Whetstone Christian Church, 5940 S Madison Ave, Anderson, IN 46013

The following satellite center locations will be open from 1:00 pm to 6:00 pm Monday, April 27, 2020 through Friday, May 1, 2020.

Alexandria 4-H Building, 512 E 4th St, Alexandria, IN 46001

Edgewood Baptist Church, 3743 Nichol Ave, Anderson, IN 46011

Elwood City Hall, 1505 S “B” St, Elwood, IN 46036

Fire Training Center, 5718 MLK Blvd, Anderson, IN 46013

Glad Tidings Church, 815 E School Street, Anderson, IN 46012

*Madison County Visitors Bureau, 6335 S Scatterfield Road, Anderson, IN 46013

Pendleton Library, 595 East Water St, Pendleton, IN 46064

The satellite center locations will also be open on Saturday, May 2, 2020 from 12:00 pm to 5:00 pm.

*Madison County Visitors Bureau will also be open on Saturday, April 25, 2020 from 12:00 pm to 5:00 pm.

All vote center and satellite vote center locations will be able to administer every ballot style for all 111 precincts in Madison County. As ballot styles change with every election, providing a specific number for this plan is simply not feasible, therefore, this plan will not attempt to do so. All ballot variations will be delivered to the vote centers prior to Election Day. Each ballot card printed will have the printed initials of the poll clerks captured through the electronic signature pad at the time the poll clerks log into the electronic poll book system printed on the back of the ballot card immediately before the ballot card is delivered to a voter, per IC 3-11-18.1-4. Registered voters will have the ability to vote at any of the vote center or satellite vote center locations.

Each vote center and satellite vote center will have one precinct election board administering the election, consisting of; one inspector, one Republican judge, one Democrat judge, one Republican clerk, and one Democrat clerk. Each vote center location will have at least two e-poll books, six ExpressVotes, and one DS200 tabulator.

Voter Education Efforts

Madison County has a full media and community outreach strategy that will involve press releases to widely circulated newspapers, social media platforms, and radio stations. In addition, we will use our county website (www.madisoncounty.in.gov) and the state's voter information website (www.IndianaVoters.com) to prepare Madison County citizens for this change. Moreover, each household with a registered voter will receive a postcard in the mail prior to the 2020 Primary Election, informing them of this change and where each vote center is located. Signs that list the new voting locations will be placed on the entrances of all the former precinct-based locations. We will also plan to attend community events where the Circuit Court Clerk and her staff will speak about the change. Here is a copy of our sample press release:

MADISON COUNTY TO IMPLEMENT VOTE CENTERS

FOR IMMEDIATE RELEASE
(DATE TO BE INSERTED LATER)

Vote Centers Will Increase Voter Convenience and Save Madison County Money

Madison County will officially become a vote center county in time for the upcoming 2020 Primary Election. Madison County will be one of several Indiana Counties to switch to the vote center model.

"I'm excited that Madison County has decided to transition to vote centers," County Clerk Olivia Pratt said. "It's taken a lot of planning and hard work from all those involved, but the benefits to the voters of our county will be well worth the effort we have spent implementing this new model."

Simply put, vote centers are polling places where any eligible voter in the county may go to vote. They eliminate the need for traditional polling locations and allow voters in the county more flexibility when casting their ballots. Vote centers throughout the county are linked by secure internet connections, and electronic poll books are instantly updated as ballots are cast. Another benefit is that the county will save money on various Election Day costs.

Wayne, Tippecanoe and Cass counties piloted the vote center program in Indiana from 2007-2010. Now, 39 counties in Indiana have made the switch, with many others planning to do so as well.

Madison County will implement the use of vote centers during the upcoming 2020 Primary Election.

"Ultimately, our goal is to make voting easier and more convenient for the voters of our county while also saving the county money," County Clerk Pratt said. "As always, we value the feedback of our constituents and encourage you to voice your questions or concerns."

To learn more about how vote centers operate, to review other counties' vote center plans, or to access research on vote centers and their success, visit www.VoteCenters.IN.gov or www.madisoncounty.in.gov

SECURITY

Key Players

The following narrative describes what would happen in case of an emergency during an election. The first responders to any emergency, either man-made or natural event, are local citizens. Poll workers, volunteers, and police and fire personnel will be the first to identify the problem. The next level of response will come from the Madison County Commissioners and the Madison County Election Board in cooperation with the local emergency management agency. If deemed necessary by the County Commissioners, The Office of the Governor (whose resources included IDHS, the Indiana National Guard, and the state police) and the Office of the Secretary of State's Election Division will be contacted for emergency assistance. In addition, any action taken either by the Office of the Governor or the Office of the Secretary of State may be taken in consultation with the Office of the Attorney General to ensure that interpretations of the laws are correct.

General Situations

Five general situations exist in which decision-making may occur regarding the election process and activities in Madison County:

Situation Normal—the status quo exists and the process moves forward according to normal laws and procedures.

Isolated Emergencies—individual precincts or parts of the county experience disruption to the election process and local agencies respond accordingly.

Regional emergencies—an emergency involving Madison County and neighboring counties exists and a state-level response is required.

Catastrophic emergencies inside Indiana—a large disaster exists that diverts the resources and attention of the citizenry and a state-level response in cooperation with the federal government is required.

Catastrophic emergencies outside Indiana—a large disaster exists in the United States that diverts the resources and attention of the citizenry and a federal-level response is required.

Local Preparation and Response

The Madison County Commissioners have worked closely with the local emergency management director, the County sheriff, and local police and fire stations to ensure Madison County is prepared for emergencies. In addition, the Madison County Commissioners will be in close communication with the County Election Board should any emergency occur on or surrounding the election process.

In this endeavor to be prepared for an emergency that could occur on or surrounding an Election Day, Madison County has taken the following steps prior to each Election.

1. Review of IC3-11-8.3-2 which outlines procedures for changing polling locations
2. Review of state's Quantity Purchasing Agreements (QPA) whereby Madison County may buy or lease emergency generators and other supplies.
3. Contact is made with power companies to ensure all vote centers have power on Election Day.
4. The Madison County Information Technology Department and Election Systems and Software will have employees at the Courthouse and in the field on Election Day in the event of any disruption.
5. In the event of a power failure at a vote center, the voting machines and e-poll books will be switched automatically to a battery backup.
6. In the event that the internet is inaccessible at a vote center location, the eligibility of a voter will be ascertained from records maintained by the Madison County Voter Registration office via telephone/cell phone
